Ware-Hammons

Mr. Roy Ware, the young son of Mr. and Mrs. George S. Ware, and Miss Alice Hammons, youngest daughter of Mr. John Hammons, eloped Friday afternoon, planning to go to Jellico, Tenn. to get married, both being under age. When Mr. George Ware, father of the would-be groom, returned from Lexington later in the day and missed his boy and after being informed of the young people's intentions he rushed by auto to Winchester and there overtook the youngsters. He brought them back home that night. Parental objections vanished over night and the young folks, the next day, went to Stanton with consent of parents and were united in marriage in the office of County Superintendent, Miss Maud Bowen, by Judge H. T. Derickson.

This was the first nuptial knot tied by the new Judge but the new ceremony was performed as gracefully as if he were an experienced clergyman.

The young couple left on the night train for Dayton, Ohio, where they expect to reside.

'Mobiling Spoiled

The intermitting rains keep the roads in a slush and very slippery. The autoists find travel over such roads very unpleasant and as a consequence their going is limited to almost a point of necessity. When the joy riding is thus strangled, the stocks of gasoline in garage tanks are easily maintained. This forced economy is helpful to Powell. So we are reminded of the lesson an old reader used to teach us, entitled, "It's an ill wind that Blows Nobody Good."

Excellent Bank Report

The Clay City National Bank has one of their excellent reports in this issue of the Times. The report shows this resourceful institution to be in fine condition, amply protected with a large amount of cash in vault and on deposit, together with a nice reserve in Federal reserve bank, and a large amount of Government securities carried. This all spells safety.

Has Injured Hand

Sterling Anderson is home on a vacation nursing a very sore hand occasioned by a small laceration between two fingers while handling a power line on a lease at Fixer where he is regularly engaged. He will be here with his parents, Mr. and Mrs. Charlie Anderson until his hand gets well enough to return to work. At this time it is giving him much pain.

Public Sale January 20

At his residence in this city Friday, January 20, Mr. Ben Noe will have a sale of his personal property, and move to Connersville, Ind. Mr. Noe is a most excellent citizen whom we regret to lose. See advertisement of sale in this issue of the Times for list of articles for sale.

Some Job But O. K.

Last week's issue of The Times which contained the Winchester Business Review is receiving many compliments. All of this work was done in this office with the regular force, and it appeared promptly on time. This issue contained 611 inches of reading matter, not counting display advertising and reading notices. This matter was all hand set and wholly satisfactory to the business firms represented. It would have been very difficult to have done so large a job in so short time but for the fact that it came just after the holidays which found a very quiet period in this office.

It is our intention to give a business review of our neighbor, Mt. Sterling, next week. This should also be interesting reading for our subscribers. Extra copies may be had by speaking for them by Saturday of this week.

Stockholders' Meeting

The stockholders of the Clay City National Bank held at the banking office Tuesday re-elected the old board of directors viz: A. T. Whitt, James B. Hall, G. D. Hieronymus, Geo. Hon and M. H. Courtney. These directors then immediately held a meeting and elected James B. Hall, President, G. D. Hieronymus, Vice President and Harry L. Russell, Cashier.

Powell Boys Improving

Jim McKinney, who has been confined at the Bush Hospital with typhoid fever for the past two months, will be able to return in a few days, according to recent information received from Winchester.

Harlan Walters, also an inmate of the Bush Hospital, is recovering and will soon be able to return to his home here.

Our Representative Fares Well

Our Representative, W. T. McGuire, has fared well in the appointment of committees. He will serve on the committee of Classification of Cities and Towns; Chairman of the Forestry Committee. He also holds a place on the committee of Public Bridges, Racing Committee, State University and Sinking Fund.

Buys Farm in Indiana

Ben Noe purchased last week two tracts of land five miles from Connersville, Ind., at a total price of \$8,100. Twenty-seven acres of this land is excellent bottom land on White river. Mr. Noe will move to this farm about the first of February. Mr. Noe was in Indiana last week and made the purchase of this land.

Ben Noe Sells Farm

Ben Noe sells his farm of about sixty acres to A. T. Whitt for \$6,000. Possession February 1st. This farm is just out of the city limits and is most all bottom land. It is regarded a bargain at the price.

"Tinkering The Tax Laws"

"There is the usual talk about changing the tax laws heard every time the Legislature is about to meet and as nearly everybody thinks they are unjustly taxed, the agitation of the question seems to meet the general approval of the discontented.

"It was 'taxation without representation' that induced the American Colonies to throw off the yoke of bondage and this seems to have been succeeded by 'taxation with misrepresentation' in these latter days, judging from the character of the complaints heard." So says a bulletin of the Kentucky Tax Reform Association which is a strong advocate of classification for taxation. The Association also believes farm values are none too high and not unduly taxed.

Well, perhaps the farmers need no consideration nor concession from point of taxation, but if there was no tax whatever levied against the farmer for the next twenty years he would not be able to retrieve the losses he has sustained the past twenty months. Has any other business suffered so heavily in losses? No. Legislation has stood on guard for all but the farmer. Even the railroads with inflated fixed rates have been given a guarantee of interest on their fourfold padded investments. The farmer has been given no aid whatsoever. The Times hopes to see this session of the Legislature do its duty.

Where is The Weather Man?

The weather prophets who had us all badly scared in the fall when they told us the winter would be unusually severe have certainly missed their mark. So far, it has been a warmer winter than last year, and that was the mildest for thirty years before. Bluegrass is furnishing good pastures below yet and will continue to do so all winter unless this severe cold weather forecast last fall comes around at the last hour. While this warm weather works good in the saving of feed, and coal, it works bad on the price of eggs and dairy products which is always lower in open winters. After all there is but little advantage to the farmer in an open winter so far as dollars and cents are concerned.

Town Board Meets

The newly elected Town Board of Trustees met at the city school building Friday night, having been duly sworn in, proceeded to business by electing John P. Ringo chairman and transacting some other business. The meeting adjourned to convene again Tuesday night of this week. At this meeting Shelby Martin was elected City Clerk and Dr. W. C. Martin Treasurer. Application for license to operate a pool room was deferred for investigation for one month to see how badly the town needs this business. A Board of Supervisors was appointed to pass upon assessments. This board will meet Saturday for action and will hold a meeting the following Saturday to hear complaints from persons whose property has been raised.

Oil Prices Downward

The effort to continue the advance on crude oil prices has failed and the price has gone off 25 cents per barrel in the last week. This means some lower gasoline and coal oil, we presume. It is just that oil as well as farm products should decline.

A HOME-MADE PAPER.

THURSDAY, JAN. 5, 1922

SUBSCRIPTION RATE,
ONE DOLLAR PER YEAR.

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 3, 1879.

The Government, the Railroads and the People

With agriculturist bankrupting from ocean to ocean, and other lines of business prostrate all over the country, the railroads enjoy a measure of protection under the present transportation act which Congress has, since the war, failed to correct. This law guarantees the railroads a fixed income of from 5 1-2 to 6 per cent. on the aggregate value of all their property.

What does the Government guarantee the producers of wealth? Nothing and they have lost millions of dollars paying the railroads their fixed income which is often double the guarantee, and this based, too, on often 400 per cent. watered stock. It is an outrage, it is a shame.

As an illustration:

Nebraska farmers shipping their hay to Omaha, in their own state, realized 59 cents per ton; the railroads collected a toll \$4.87 freight. A Texas cattleman shipped to Fortworth 300 cattle. After paying freight and commission he received a check for \$54. It cost \$831 to ship a car load of wool from Idaho to Massachusetts. It cost only one third as much to ship from the Pacific coast to the Atlantic coast over the same roads where there is water competition around by the Panama Canal. If the railroads make money hauling it from Seattle, Washington, at 90 cents, how much do they make hauling it only two thirds the way at \$3.06.

Apples sold in Canada this fall at 50 cents a bushel and millions of them rotted on the trees because they could not pay the freight here and sell them at \$3.00 per bushel.

After all, it is positively conclusive that all the people are only servants of the railroads, and the Government is their guard. How long will the suffering people endure such an unfair deal.

The burial was attended by a large crowd. The child's father was notified of his death, and he came home from Frankfort to be with those at home during their sad hours.

The lawless element have begun to think the officers are all on a strike and that they have full control to shoot, drink, swear and all that goes with this line of business.

We heartily agree with the Times in regard to our present

school system and books, and we certainly trust the Representative from Grayson county gets his school bill through and we are sure our Representative will do his part to remedy our schools. Our school books especially our readers teach nothing but fairy tales and at this age and date we need everything it takes to get our country settled on a social foundation and to supplant nothing into young minds that will not benefit and prepare them for a higher and nobler life, for we are all born of Adam and inclined to go the wrong way without it being taught in the common schools, and we are in favor of the old time trustees too, three men to look after each school, hire the teacher and then see that they teach after they are hired. But as long as the people sit, look on and take no steps toward bettering our present conditions they will remain just as they are. We hope our people will let Mr. McGuire know what we want and too to let him know we appreciate his efforts in our behalf.

THE TIME TO TAKE PEPTO-MANGAN

When You Feel a Little "Off" it Will Bring You Back to Health

Some people never need any medicine at all. They are, as the saying goes, "strong as a bull." They are mighty lucky. Most people need a good tonic once in a while. They take cold, or through overwork or social activity do not get enough sleep; many eat improper food and thus hurt the indigestion. It is mighty wise to take Gude's Pepto-Mangan with the meals for a few weeks and build up. One cannot have too much good health. Pepto-Mangan gives you plenty of red blood, and everybody knows that red blood means feeling good and looking good all the time. Sold by druggists in liquid and tablet form.—Advertisement.

IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:
"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all.
"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.
"I was . . . nervous and easily upset.

I couldn't rest well at night and was . . . just lifeless.
"I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . .
"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest, and much stronger so that I easily did my house work.
"Later I took a bottle of Cardui as a tonic. I can recommend Cardui and gladly do so, for if more women knew, it would save a great deal of worry and sickness."
The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it. L 78

Importance of Thrift

Thrift is one of the master keys that will open the way to better business. Thrift and economy are old fashioned virtues but coupled with present day intelligence, a combination is formed that is hard to beat. As time goes on people are appreciating more and more the necessity for thrift, and it is gradually gaining a larger significance than it has held for several years.

By thrift is not meant denying ourselves the necessities of life, or carrying it to the extent of miserliness. We did, however, give riotous spending a fair trial. We found that this period of artificial prosperity could only be temporary, and what we have passed through in 1921 was the relapse that followed.

As we face 1922 nothing will help more to carry us through the remainder of the re-adjustment period, nothing will help more toward good, staple business and a real prosperity, than a foundation of individual, corporate, municipal and national thrift.—Business Review.

The only explanation of Tanlac's great success is Tanlac's true worth.—C. Shimfessel.
